

## Last information for the Indoor Track & Field Meeting Vienna on 30.1.2021

The Indoor Track & Field Meeting will take place this Saturday in Vienna under very special circumstances. The organizers have tried to do the maximum possible within the framework of the current Austrian Covid-19 regulations and in compliance with all health and safety aspects. Nevertheless, there are of course many restrictions that affect almost all processes around the event. Here is a summary of the most important points.

### Friday, 29.1.

On this day, the Dusika Stadium will be used for the whole day for the reconstruction of the athletics facility and the installation of the meeting infrastructure. As these activities are not allowed to take place at the same time this year due to government regulations, they will take much more time. Therefore, unfortunately, **no training** is possible on this day.

### Saturday 30.1.

The departure times for the shuttle bus from the Hotel Lenas Donau to the Dusika Stadium will be displayed at the lobby of the Hotel Lenas. The transfer time is 10-15 minutes. (you have to wear a mask at the bus and only 50% of the seats may be used)

Entry times to the foyer of the Dusika Stadium (=antigen testing):

Session 1: 10:00 - 11:30

Session 2: 13:00 - 14:30

Session 3: 16:00 - 18:15

Upon entering the stadium, all athletes and coaches have to complete a mandatory Covid 19 antigen rapid test. The test will take approximately 15-20 minutes, in addition, of course, there may be a waiting time in front of the testing stations, so please arrive on time. Very important: Athletes and their respective pre-registered coaches are allowed to enter the stadium only in the session in which they are participating. In the other sessions you won't be allowed to enter the stadium.

The time from the completion of the test until entering the competition area (athletes) or the grandstand (coaches) must be spent on the assigned seats in the foyer of the Dusika Stadium.

Admission to the competition area (for athletes) or grandstand (for coaches) is scheduled for the following times:

Session 1: 10:30 - 11:30

Session 2: 14:00 - 14:30

Session 3: 17:00 - 18:15

After each session, **all** persons (athletes and coaches) must leave the stadium **immediately** through the back exit (government requirement) to avoid mixing with the athletes/coaches of the following session and to allow disinfection of the competition area (chairs, equipment,...).

If an athlete starts again in a later session, his start number in connection with his entry confirmation voucher (which he has received after a negative Covid-19 test for all his events) is the authorization for re-entry without another Covid-19 test. For coaches the same applies, they will receive a wristband after a negative Covid-19 test, which entitles them to re-entry if necessary.

**No late entries** are possible on site, not even for coaches.

Each event participant must sign a **Covid-19 disclaimer** for the event. This form has already been sent to your federation in advance and must be brought already filled out. (see attchement)

By government regulations there are **no dressing rooms / showers allowed to be available** at the Dusika Stadium. The buffet must also remain closed. However, a couple of food stores in the neighboring Stadium Center will be open until 19:00.

**Warming up** in the foyers (front or back) is not possible, this can only be done in the immediate competition area.

**Masks** are compulsory and at least 2m distance applies to all persons in the entire stadium, except for athletes in the immediate competition area.

**No spectators** are allowed.

Victory ceremony - The **winner** of each competition will be honored directly after the end of the competition.

In the events 60m and 60m hurdles there are 2 series each. Lane draw in Series 1 will be done according to the PB's, series 2 according to the times of series 1. The two fastest Austrians will be eligible to start in the fastest heat of each series.

The meeting will be broadcast in its entirety as a livestream at the following link:
